J. J. Keller® Employment Law Poster Audit & Research Service

❯ *Eliminate time-consuming research and ensure compliance with federal, state and local posting regulations.*

Compliance with employment law posting regulations is difficult to manage, especially when you have multiple locations and requirements that vary by county, city, or municipality. Fortunately, you can protect your company against federal, state, and local labor violations and potential litigation with our *Employment Law Poster Audit & Research Service*.

This invaluable service consists of two components:

Research Service – Our knowledgeable research team will identify the posting requirements for each of your sites based on federal, state and local jurisdictions. You'll receive a summary of requirements by location — updated on a regular basis — so you know exactly what you need to comply with, and when.

Audit Service – With this comprehensive audit, you'll have visibility into which postings are currently posted at your facilities. Flexible audit options (ranging from a phone or email survey to an onsite visit from our research team) will reveal any gaps in your compliance program.

Gaps found can be filled with our full line of employment law posters. Written and produced in-house and backed by more than 60 years of compliance knowledge, our posters will bring you into compliance. As a leading provider of employment law posters, our service can accommodate any required poster you need, on demand.
