USE THE POWER OF OUR CLOUD SERVICES FOR EFFECTIVE RISK MANAGEMENT

VALUABLE TOOLS WITH REAL BENEFITS

- Fewer accidents and claims
- Increased productivity
- Reduced injuries
- Increased compliance
- Lower premiums for your clients
- Increased competitive advantage

Give Your Loss Control Representatives And Policy Holders Tools To Succeed

Whether you want to provide safety and compliance information directly to your clients, or to your risk consultants for use with their clients, we have the solutions, including: **KellerOnline**[®] safety management tool, **FleetMentor**[®] and **FMLA Manager**[™] online tools.

Our cloud services offer:

- Easy access to up-to-date regulatory and best practice information for workplace safety, fleet management, and FMLA administration
- Written safety plans, on-site audit tools, classroom training, and hazard assessments
- Information on recent regulatory changes and how they impact businesses, and much more

AND THAT'S JUST A START ...

In addition to training and cloud services, we offer a tremendous selection of safety and compliance resources for risk management, including:

- an online compliance library of reference materials and newsletters
- whitepapers and webinars
- forms
- supplies

You're sure to find just the right mix for your loss control representatives and policy holders, and you can be confident knowing that every product and service is backed by the breadth and depth of our expertise.
