

J. J. KELLER® CSA PERFORMANCE SUITE

Proactively manage your CSA scores with robust dashboard reporting and expert compliance services.

This best-in-class service provides you with:

- › An in-depth dashboard featuring real-time CSA data to more proactively identify patterns, trends, and areas for improvement
- › Prioritization of risks to prevent future violations
- › Expert assistance to help you prevent fines, litigation, vehicle downtime and DOT intervention
- › Corrective action training for drivers charged with violations
- › Insight into the effectiveness of your corrective efforts
- › Support in the event of an intervention or audit

How the service works:

- Roadside Inspection Reports are submitted by your drivers through the J. J. Keller® Documents app or by your location contacts
- Location managers quickly identify the driver or violation impacting their scores by viewing the **CSA Performance Suite** dashboard
- Drivers who receive a violation on a roadside inspection are enrolled in an online corrective training course
- A J. J. Keller® Compliance Specialist offers ongoing guidance and oversight based on trending metrics and action items.

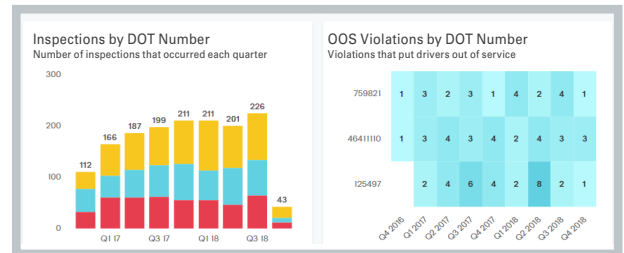

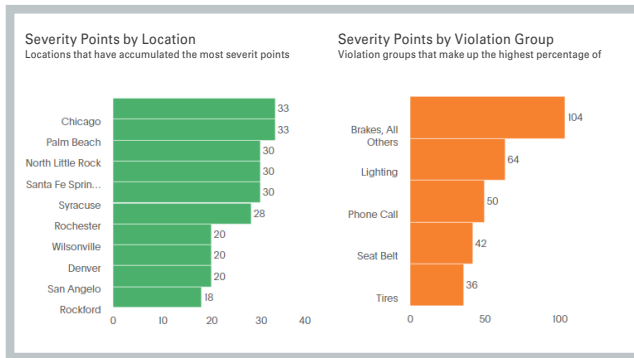

We're here for you:

- **Compliance expertise** from the most trusted source for regulatory insight and best practices.
- **Dedicated Compliance Specialist** who gets to know your business, shares a wealth of experience managing CSA data, and becomes an extension of your safety team.
- **Data Security** as evidenced by our accreditation and ISO 27001: 2013 certification.

Powerful dashboards for proactive compliance

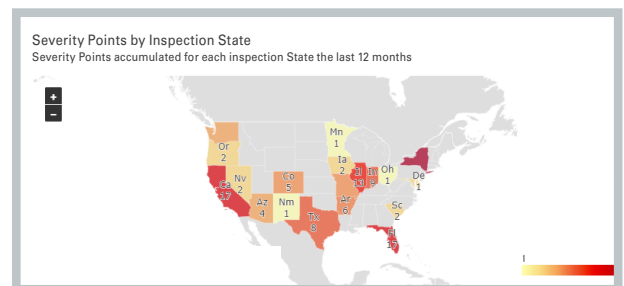

Pinpoint Problems: Quickly identify negative trends before they become patterns.

Dig Into Your Data: Filter the dashboards by BASIC, DOT number, and location to easily explore your fleet performance.

Understand Your Scores: Drill down on any visualization to gain deeper understanding of the items impacting your CSA scores.

Locate Violations: Find where your CSA violations are occurring geographically.

Contact us today to discuss how this service can help you improve compliance.
