

J. J. Keller's Motorcoach and Bus Safety Compliance Assessments

Experienced consultants identify process and compliance gaps for passenger-carrying fleets

Our on-site compliance assessment provides a comprehensive review of your company's DOT program. An experienced Consultant is on-site at your location to audit your documentation, talk with your key staff, identify areas for improvement and provide written recommendations.

We specifically evaluate the target areas identified by the FMCSA 2012 Motorcoach Safety Action Plan (MSAP), including: driver fatigue/hours of service, driver behavior, vehicle maintenance, operator oversight, crash avoidance measures, and occupant protection.

BOTTOM LINE RESULTS

- ✓ Understand how CSA and DOT regulations will affect your company
- ✓ Receive an estimated safety score & assessment
- ✓ Understand your compliance under the Federal Motor Carrier Safety Regulations (FMCSRs)
- ✓ Get answers to your questions from an expert, onsite at your location
- ✓ Get a comprehensive review of policies, procedures, training, operating authority and other critical driver and vehicle records
- ✓ Identify process and compliance gaps
- ✓ Receive a written executive summary report with best practice solutions to correct deficiencies and improve overall compliance

We help fleets that operate:

Motorcoach | Bus | Limousine | Minibus | Van

COMPLETE SAFETY MANAGEMENT CONTROL REVIEW
