J. J. Keller & Associates, Inc.®

Since 1953

Easier ELD Rollout

> Protect your company from the common obstacles, frustrations, and business disruptions of transitioning from paper logs to electronic logging devices (ELDs). **The J. J. Keller®** *Driver DataSense™ Plus with ELD Rollout* **service will help you meet FMCSA's ELD mandate deadline** by expertly managing every step of the process, from end-to-end rollout services to internal change management and beyond.

End-to-end ELD Rollout

The key to a successful rollout is partnering with a team that's experienced at implementing ELDs. This service provides you with a skilled J. J. Keller project leader and implementation team that will:

> **Develop a step-by-step ELD rollout plan** so you'll know exactly what to expect and when

> **Schedule and coordinate the installation of J. J. Keller® ELDs** in your trucks to minimize driver downtime

> **Assist drivers in downloading and setting up the J. J. Keller Mobile® logging app** on their own smart devices

> **Coordinate and administer drivers' ELD training** to get them up and running and in compliance

> **Configure the J. J. Keller® Encompass® back office** in line with your organizational structure

> **Deliver regular status updates** that ensure milestones are being met and potential problems are addressed

> **Provide 24/7 driver technical support** to help keep your fleet on the road and profitable

Internal Change Management

Preparing your people and processes for the ELD rollout is critical to its success. To facilitate this internal change, your J. J. Keller team will:

> **Understand your company's philosophy** to ensure the rollout aligns with corporate values

> **Enlist executive sponsorship and commitment** so there's top-down support for the rollout

> **Prepare the corporate leadership team** to effectively address common challenges during the rollout

> **Help draft corporate-wide communications** that keep employees informed of the progress and support morale

Ensure new drivers to your fleet are using J. J. Keller® ELDs correctly thanks to our ongoing coordination and administration of drivers' ELD training. These services are available whenever you need them.

Better Hours of Service Compliance

❯ As your fleet begins to use ELDs, it can be difficult to manage and make sense of the constant stream of driver data these devices deliver. The J. J. Keller® *Driver DataSense™ Plus with ELD Rollout* service takes this problem off your hands. The combination of our technology and our regulatory expertise **provides you with reliable oversight and guidance for improving Hours of Service compliance**.

Ongoing Data Collection

Our proprietary technology will collect and process the constant stream of incoming driver data from all of these sources:

❯ **J. J. Keller® ELDs** (and ELDs from other providers if applicable)

❯ **Paper logs**

❯ **Time-entry records** (exempt logs)

You and your staff will be able to access this data 24/7 via our online client portal for a holistic view of Hours of Service compliance. Plus, you can take advantage of interactive reports that allow you to drill down on each data point to identify what locations or drivers need additional attention.

Expert Analysis & Guidance

A dedicated J. J. Keller® Client Service Specialist will continually analyze and audit your driver data, which is a critical step in identifying regulatory risk and managing Hours of Service compliance. The Client Service Specialist will use this data to:

❯ **Provide continual guidance** for improving driver compliance and performance

❯ **Send email alerts** of key tasks to help you establish priorities

❯ **Create compliance reports** that allow you to proactively make better decisions for your fleet

❯ **Keep your driver roster and equipment list updated in the Encompass® back office** so your information is always current

❯ **Identify and help correct unassigned driver time,** which is a common struggle for fleets as they transition to ELDs

❯ **Offer expert assistance** in the event of a DOT audit or intervention

The J. J. Keller® *Driver DataSense™ Plus with ELD Rollout* service **gives your company an easier way to comply with the ELD mandate … provides internal support for the change … manages your drivers' data …** and **helps you improve Hours of Service compliance**. Together, we'll turn smart compliance into smart business.
