

J. J. Keller's Title Transfer Services

Helping you easily and cost-effectively manage titling, registration, & lien holder changes

When experiencing a company merger or acquisition, your company needs to address registration and titling changes for all company vehicles and equipment. We will help you with these processes, and also make you aware of surrounding issues as they relate to timing of DOT# changes and vehicle markings.

Leave the Work and Worry to Us!

We'll transfer your vehicles' titles and registrations from "prior" name to "surviving/new entity" name and track the status of title changes to ensure accurate completion by the states.

Hold, Track, and Manage!

All changed titles are returned to us, accounted for, and then forwarded to you or kept with us for future management. Working directly with state agencies and tag agents allows us to quickly and efficiently get your vehicles road ready.

Let us Simplify the Process... and Save You Money!

We recently helped a Pennsylvania company re-title and register their vehicles from the prior company – and we saved them over \$60,000 by working within the state requirements in a more cost-effective manner.

Here's How We Make the Process Easy and Hassle Free:

- We work with you to establish clear goals, such as prioritizing the states to re-title first, to avoid any late fees.
- We discuss and agree on all items needed to complete the project, such as equipment data, physical titles, Power of Attorney, etc.
- Together, we establish an implementation plan and agreed-upon timeline.
- You have anytime access to your account through our Client Information Center website. View, sort, and download vehicle data with comprehensive information.
- We will prepare and submit applications to the states for title and registration changes and lien add, if applicable. We work with a network of tag agents to process work through state offices quickly and accurately.
- As a result of re-registration and re-titling, we will maintain vehicle data changes in our Client Information Center.
- We ensure timely receipt of titles by working with lien holders and leasing companies.
- Once we complete re-titling, you will have quick access to up-to-date titles, so you can sell equipment without delay.
- As titles are updated, we'll forward them to you or store them in a secure location.
