**DID YOU KNOW?**

No two adult learners are alike; each learns best at a different pace and in a different way.

eLearning supports the three basic learning styles:

- **Visual Learners** who learn through seeing. They process information best when it is presented in a written language format or in another visual format such as pictures or diagrams.
- **Auditory Learners** who learn through listening. They process information best when it is presented in an audible format.
- **Tactile/Kinesthetic Learners** who learn through moving, doing, and touching. They process information best in hands-on learning settings in which they can physically manipulate something in order to learn about it.

## J. J. KELLER® ENCOMPASS® TRAINING

Many carriers struggle to manage safety and training proactively. **Encompass® Training** and recordkeeping provide a better way to fulfill DOT compliance requirements and maintain efficient operations.

Pair with the Dash Cam PRO to quickly assign video and on-demand training to your drivers via email or text. Drivers complete training at their convenience using the J. J. Keller® Training mobile app – on the road or at home. They can even download courses to complete them later without an internet connection!
