

J. J. Keller® Encompass® System

Manage overall fleet compliance with the option to implement ELogs anytime

The J. J. Keller® Encompass® system gives you tremendous fleet safety and compliance tools with the option to use ELogs in the future. Over 6,500 fleets use the Encompass® system to manage driver and vehicle compliance. This system gives fleet managers extraordinary insight to fleet operations and transparency to information at all compliance levels, even across multiple locations.

Manage Complex Regulatory Requirements with the Encompass® System to Achieve:

- **Paperless Recordkeeping** — Increase productivity with electronic storage of DQ files, alcohol & drug files, vehicle titles and maintenance, accident tracking, training files and more.
- **Hours of Service** — Optional manual and scannable log entry available.
- **Automated Driver Duty Status & Vehicle Inspection** — Monitored by our system against Parts 395 and 396, ensuring that hours of service recordkeeping is accurate and inspection details are recorded per regulatory requirements.
- **Vehicle Legalization** — Track and review unit-specific documents.
- **Semi-automated Fuel Tax Reporting** — Quarterly fuel reports completed by quick data import or manual entry of trips.

Your Encompass® system subscription includes:

- **Drug & Alcohol Program Management** — Manage random selections and record all test results and paperwork.
- **Dashboard Alerts** — Immediately identify compliance areas that require attention.
- **Driver Training Recordkeeping** — Track both initial and ongoing driver training files.
- **Log Auditing** — For scannable logs and manual entry. Includes state and industry rule sets.
- **Background Checks** — Integrated background report ordering/reporting.
- **CSA Fleet Scorecard and Knowledge Center** — Import FMCSA roadside inspection information.
- **Customizable Reporting Templates** — Based on company locations, driver and unit types, and more.
- **Vehicle Maintenance** — Schedule and track preventive maintenance; manage parts inventory and repair orders.
