# Encompass® Compliance System

## Reporting

- **Exceptions-based reporting** so you can see critical safety and compliance data immediately, and a dashboard with alerts for items expired, missing or due
- **Ready reports** with over 100 of the most common safety and compliance reports to improve efficiency and oversight

## Compliance

- **Four regulatory and risk-based dashboards** allow for in-depth management and compliance with all requirements and the big-picture view

## Flexibility

- **Completely paperless recordkeeping:** scan, import and email forms
- **Supports multiple locations** and decentralized operations
- **Unlimited users**
- **Customized report creation**
- **Cloud-based** for access anytime, anywhere
- **Secure, customizable access** to employee and vehicle information based on company location, job function, area of responsibility or operational need
- **Import and track** company-specific forms and processes
- **Hours of Service compliance:** audit and manage driver log data with electronic logs, scannable logs, or manual entry

**Driver Qualification Management**

- ✓ Maintain all driver and employee records per the regulations
- ✓ View and track Hours of Service using ELogs, J. J. Keller® scannable paper logs or manual entry of logs using multiple rule sets

**Vehicle Management**

- ✓ Capture and maintain all unit information, including parts, title, license and registration
- ✓ Fuel tax reporting — automated or manual
- ✓ Unit service and maintenance tracking, reporting and scheduling

**Performance Management**

- ✓ Employee performance and unit idle time, hard braking, mpg, speeding and more
- ✓ GPS mapping for location and routing
- ✓ Driver scorecard

**Compliance Review/CSA**

- ✓ Track roadside inspection results, reports and details
- ✓ View driver and fleet CSA scorecards
