

# J. J. Keller® Encompass® Premium Edition

Manage total fleet compliance and performance with ELogs

The **Premium Edition** of the Encompass® system gives you everything you need to effectively manage fleet safety and compliance. It's the only system on the market that offers a fully blended view of compliance and performance. This edition gives company executives the tools to maximize profits, strategize for the future and reduce risk through extraordinary insight to total fleet operations.

## The Encompass® System Gives You Regulatory Compliance, Performance Management, and ELogs to Maximize ROI:

- **ELogs On a Smart Device** — Use your drivers' smart device to download the J. J. Keller Mobile® app, or use the J. J. Keller® Compliance Tablet™ and eliminate the hassle of negotiating a data plan. Updates on the fly. Includes EDVIRs.
- **Automated Fuel Tax Reporting** — Quarterly fuel reports completed by quick data import.
- **Optimize Routes** — Locate drivers to deliver superior customer service while managing operational costs.
- **Fuel Savings** — Identify idling, speeding and hard braking events.
- **Paperless Recordkeeping** — Increase productivity with electronic storage of DQ files, alcohol & drug files, vehicle titles and maintenance, accident tracking, training files and more.
- **Automated Driver Duty Status & Vehicle Inspection** — Monitored by our system against Parts 395 and 396, ensuring that hours of service recordkeeping is accurate and inspection details are recorded per regulatory requirements.
- **Measure Performance** — Track and review unit-specific data to plan for future capital investments.

## The Encompass® system with ELogs improves driver compliance and efficiency:

- **Increased Drive Time** — The Encompass® system records drive time by the minute, not in the 15 minute increments on a paper log grid. Drivers maximize every minute of their driving day.
- **Instant Access to Available Drive Time** — Anytime access to simplified pie charts shows how many hours drivers have available to drive today and weekly. Alerts remind them to take their 30-minute break.
- **No Roadside Inspection Hassles** — Roadside Inspection Mode locks out unrequired data and allows the driver to show only their current and previous seven days of logs.
- **Reduced Paperwork** — No more filling out a log book! At the touch of a finger drivers log in, do their pre-trip, record their 30-minute break and log off. It's that easy.

## Your Encompass® Premium Edition subscription includes:

- **Drug and Alcohol Program Management** — Manage random selections and record all test results and paperwork.
- **Dashboard Alerts** — Immediately identify compliance areas that require attention. Alerts can be emailed automatically.
- **Mapping** — Instant location of drivers to improve routes, manage fuel, and track units.
- **Log Auditing** — For electronic logs, scannable logs and manual entry. Includes state and industry rule sets.
- **Background Checks** — Integrated background report ordering/reporting drug and alcohol program management. Plus, manage and record random selections.
- **CSA Fleet Scorecard and Knowledge Center** — Import FMCSA roadside inspection information.
- **Customizable Reporting Templates** — Based on company locations, driver and unit types, and more.
- **Vehicle Maintenance** — Schedule and track preventive maintenance; manage parts inventory and repair orders.
- **Driver Training Recordkeeping** — Track driver training manually or via J. J. Keller's Training on Demand.
- **Geofencing** — Create and manage radius or polygon geofences and easily report time and mileage inside, outside, and between geofences.
