The J. J. Keller™ E-Log Difference: A Mobile Platform

Electronic Logs • Electronic DVIRs • Fleet Compliance • Automated Fuel Tax • GPS & Fuel Reporting

J. J. Keller™ Electronic Logging Device (ELD)

Our ELD installs in less than 10 minutes, collects engine data, and works with *all* vehicle classes (1–8). Data is sent via Bluetooth® wireless technology to your choice of smart devices.

J. J. Keller Mobile® App

With the J. J. Keller Mobile® app, you get unrivaled flexibility to choose the smart devices that are right for your fleet. System updates done on the fly, with no hardware swapouts.

Option 1
Bring Your Own Device (BYOD)

Download the J. J. Keller Mobile® app to your iPhone®, iPad®, or Android™ smart device.

Option 2
J. J. Keller™ Compliance Tablet

Use our proprietary smart device pre-loaded with the J. J. Keller Mobile® app, covered by the Verizon 4G network.

Option 3
Combination of Devices

Use drivers' devices, iPhone or Android, or the J. J. Keller™ Compliance Tablet for increased flexibility.

The J. J. Keller™ Encompass® Online Portal

The Encompass® online portal collects data for a real-time view of driver compliance and vehicle performance via an online dashboard. Three available editions provide scaleable options ranging from E-Logs only to full compliance and performance management.

Download on the App Store

J. J. Keller Mobile® app can be downloaded on drivers' mobile devices.
