HIGH SECURITY

ISO 17712 HIGH-SECURITY ("H") SEAL

DQS ISO 9001 — DQS-CERTIFIED FOR ISO 9001 FOR HIGH SECURITY SEALS

For over 70 years, J. J. Keller has been the industry leader, helping transport companies maintain safe, compliant and secure operations. We offer seals for every level of security and a range of industries, including our new proprietary seals.

Features

- Made of hardened low-carbon steel for strength with zinc coating for protection from rust and corrosion
- Large white panel on barrel provides superior readability and barcode scanning on any color seal
- C-TPAT compliant
- High-impact ABS plastic overmolded pin and barrel for improved tamper evidence; withstands exposure to the elements
- Anti-spin design inhibits tampering by high-speed spinning and shows evidence of tampering
- Barrel and pin connected to ensure like-numbered parts stay together until seal is used
- Laser-etching provides high-contrast marking for greater readability and security than surface printing
- Matching sequential serial numbers on barrel and pin add a layer of security and prevent part substitution
- Personalized seals with your company name and choice of numbers also available
