

E. APD Posting and Processing

1. Posting

The BLM and the Federal Surface Managing Agency, if other than the BLM, must provide at least 30 days public notice before the BLM may approve an APD or Master Development Plan on a Federal oil and gas lease. Posting is not required for an APD for an Indian oil and gas lease or agreement. The BLM will post information about the APD or Notice of Staking for Federal oil and gas leases to the Internet and in an area of the BLM Field Office having jurisdiction that is readily accessible to the public. Posting to the Internet under this provision will not be required until after March 13, 2017. If the surface is managed by a Federal agency other than the BLM, that agency also is required to post the notice for at least 30 days. This would include the BIA where the surface is held in trust but the mineral estate is federally owned. The posting is for informational purposes only and is not an appealable decision. The purpose of the posting is to give any interested party notification that a Federal approval of mineral operations has been requested. The BLM or the FS will not post confidential information.

Reposting of the proposal may be necessary if the posted location of the proposed well is:

- a. Moved to a different quarter-quarter section;
- b. Moved more than 660 feet for lands that are not covered by a Public Land Survey; or
- c. If the BLM or the FS determine that the move is substantial.

2. Processing

The timeframes established in this subsection apply to both individual APDs and to the multiple APDs included in Master Development Plans and to leases of Indian minerals as well as leases of Federal minerals.

If there is enough information to begin processing the application, the BLM (and the FS if applicable) will process it up to the point that missing information or uncorrected deficiencies render further processing impractical or impossible.

- a. Within 10 days of receiving an application, the BLM (in consultation with the FS if the application concerns NFS lands) will notify the operator as to whether or not the application is complete. The BLM will request additional information and correction of any material submitted, if necessary, in the 10-day notification. If an onsite inspection has not been performed, the applicant will be notified that the application is not complete. Within 10 days of receiving the application, the BLM, in coordination with the operator and Surface Managing Agency, including the private surface owner in the case of split estate minerals, will schedule a date for the onsite inspection (unless the onsite inspection has already been conducted as part of a Notice of Staking). The onsite inspection will be held as soon as practicable based on participants' schedules and weather conditions. The operator will be notified at the onsite inspection of any additional deficiencies that are discovered during the inspection. The operator has 45 days after receiving notice from the BLM to provide any

additional information necessary to complete the APD, or the APD may be returned to the operator.

- b. Within 30 days after the operator has submitted a complete application, including incorporating any changes that resulted from the onsite inspection, the BLM will:

1. Approve the application, subject to reasonable Conditions of Approval, if the appropriate requirements of the NEPA, National Historic Preservation Act, Endangered Species Act, and other applicable law have been met and, if on NFS lands, the FS has approved the Surface Use Plan of Operations;

2. Notify the operator that it is deferring action on the permit; or

3. Deny the permit if it cannot be approved and the BLM cannot identify any actions that the operator could take that would enable the BLM to issue the permit or the FS to approve the Surface Use Plan of Operations, if applicable.

- c. The notice of deferral in paragraph (b)(2) of this section must specify:

1. Any action the operator could take that would enable the BLM (in consultation with the FS if applicable) to issue a final decision on the application. The FS will notify the applicant of any action the applicant could take that would enable the FS to issue a final decision on the Surface Use Plan of Operations on NFS lands. Actions may include, but are not limited to, assistance with:

- (A) Data gathering; and
- (B) Preparing analyses and documents.

2. If applicable, a list of actions that the BLM or the FS need to take before making a final decision on the application, including appropriate analysis under NEPA or other applicable law and a schedule for completing these actions.

- d. The operator has 2 years from the date of the notice under paragraph (c)(1) of this section to take the action specified in the notice. If the appropriate analyses required by NEPA, National Historic Preservation Act, Endangered Species Act, and other applicable laws have been completed, the BLM (and the FS if applicable), will make a decision on the permit and the Surface Use Plan of Operations within 10 days of receiving a report from the operator addressing all of the issues or actions specified in the notice under paragraph (c)(1) of this section and certifying that all required actions have been taken. If the operator has not completed the actions specified in the notice within 2 years from the operator's receipt of the paragraph (c)(1) notice, the BLM will deny the permit.

- e. For APDs on NFS lands, the decision to approve a Surface Use Plan of Operations or Master Development Plan may be subject to FS appeal procedures. The BLM cannot approve an APD until the appeal of the Surface Use Plan of Operations is resolved.

* * * * *

I. Waiver From Electronic Submission Requirements

The operator may request a waiver from the electronic submission requirement for an APD or Notice of Staking if compliance would cause hardship or the operator is

unable to file these documents electronically. In the request, the operator must explain the reason(s) that prevent its use of the electronic system, plans for complying with the electronic submission requirement, and a timeframe for compliance. If the request applies to a particular set of APDs or Notices of Staking, then the request must identify the APDs or Notices of Staking to which the waiver applies. The waiver request is subject to BLM approval. If the request does not specify a particular set of APDs or Notices of Staking, then the waiver will apply to all submissions made by the operator during the compliance timeframe included as part of the BLM's waiver approval. The BLM will not consider an APD or Notice of Staking that the operator did not submit through the electronic system, unless the BLM approves a waiver.

BILLING CODE 4310-84-P

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

49 CFR Parts 383 and 384

[FMCSA-2007-27748]

RIN 2126-AB66

Minimum Training Requirements for Entry-Level Commercial Motor Vehicle Operators

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Final rule; correction.

SUMMARY: FMCSA is correcting a final rule that appeared in the **Federal Register** of December 8, 2016 (81 FR 88732), regarding the establishment of new minimum training standards for certain individuals applying for their commercial driver's license (CDL) for the first time; an upgrade of their CDL (e.g., a Class B CDL holder seeking a Class A CDL); or a hazardous materials (H), passenger (P), or school bus (S) endorsement for the first time.

DATES: The effective date of this correction is February 6, 2017.

FOR FURTHER INFORMATION CONTACT: Mr. Richard Clemente, Driver and Carrier Operations (MC-PSD) Division, FMCSA, 1200 New Jersey Ave SE., Washington, DC 20590-0001, by telephone at 202-366-4325, or by email at MCPSD@dot.gov.

SUPPLEMENTARY INFORMATION: The FMCSA makes minor corrections to fix errors in the final rule published on December 8, 2016. In instruction 10, amending § 383.73, the Agency corrects "(b)(10)" to read "(b)(11)" in both the instruction and associated regulatory

text. Additionally in § 383.73, FMCSA changes paragraph “(e)(8)” to read “(e)(9)” in both the instruction and associated regulatory text. In instruction 13, amending Part 383, the Agency changes “§ 384.235” to read “§ 384.236.” These changes are required because as written, the instruction and associated regulatory text would have deleted the recent changes published in the **Federal Register** on December 5, 2016, in the final rule titled “Commercial Driver’s License Drug and Alcohol Clearinghouse” (Clearinghouse) (81 FR 87686, RIN 2126–AB18, Docket No. FMCSA–2011–0031). FMCSA makes these corrections in this document to ensure the original language in the Clearinghouse final rule remains in effect.

■ Therefore, in FR Doc. 2016–28012 appearing on page 88803 in the **Federal Register** of December 8, 2016, the following corrections are made:

§ 383.73 [Corrected]

■ 1. On page 88803, in the first column, in Part 383, amendatory instruction 10 is corrected to read as follows:

“10. Amend § 383.73 by revising paragraph (b)(3) introductory text and paragraph (b)(3)(ii) and by adding paragraphs (b)(11), (e)(9), and (p) to read as follows:”

The corrected paragraphs (b)(11) and (e)(9) read as follows”

§ 383.73 State procedures.

* * * * *

(b) * * *

(11) Beginning on February 7, 2020, not conduct a skills test of an applicant for a Class A or Class B CDL, or a passenger (P) or school bus (S) endorsement until the State verifies electronically that the applicant completed the training prescribed in subpart F of part 380 of this subchapter.

* * * * *

(e) * * *

(9) Beginning on February 7, 2020, not issue an upgrade to a Class A or Class B CDL, or a passenger (P), school bus (S), or hazardous materials (H) endorsement, unless the applicant has completed the training required by subpart F of part 380 of this subchapter.

§ 384.235 [Corrected]

■ 2. On page 88803, in the third column, in Part 384, amendatory instruction 13 is corrected to read as follows:

“13. Add § 384.236 to subpart B to read as follows:”

The corrected section reads as follows:

§ 384.236 Entry-level driver training provider notification.

The State must meet the entry-level driver training provider notification requirement of § 383.73(p) of this chapter.

Issued under authority delegated in 49 CFR 1.87 on: December 27, 2016.

Larry W. Minor,

Associate Administrator of Policy.

[Docket No. 150916863–6211–02]

RIN 0648–XF108

Fisheries of the Exclusive Economic Zone Off Alaska; Inseason Adjustment to the 2017 Bering Sea and Aleutian Islands Pollock, Atka Mackerel, and Pacific Cod Total Allowable Catch Amounts

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; inseason adjustment; request for comments.

SUMMARY: NMFS is adjusting the 2017 total allowable catch (TAC) amounts for the Bering Sea and Aleutian Islands (BSAI) pollock, Atka mackerel, and Pacific cod fisheries. This action is necessary because NMFS has determined these TACs are incorrectly specified, and will ensure the BSAI pollock, Atka mackerel, and Pacific cod TACs are the appropriate amounts based on the best available scientific information. Also, NMFS is announcing the Aleutian Islands Catcher Vessel (CV) Harvest Set-Aside and Bering Sea Trawl CV A-Season Sector Limitation will not be in effect for 2017, and TACs in this inseason adjustment will apply for 2017. This action is consistent with the goals and objectives of the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area.

DATES: Effective 1200 hours, Alaska local time (A.l.t.), January 9, 2017, until the effective date of the final 2017 and 2018 harvest specifications for BSAI groundfish, unless otherwise modified or superseded through publication of a notification in the **Federal Register**.

Comments must be received at the following address no later than 4:30 p.m., A.l.t., January 25, 2017.

ADDRESSES: You may submit comments on this document, identified by NOAA–NMFS–2015–0118, by any of the following methods:

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to www.regulations.gov/#/docketDetail;D=NOAA-NMFS-2015-0118, click the “Comment Now!” icon, complete the required fields, and enter or attach your comments.

- **Mail:** Submit written comments to Glenn Merrill, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region NMFS, Attn: Ellen Sebastian. Mail comments to P.O. Box 21668, Juneau, AK 99802–1668.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous).

FOR FURTHER INFORMATION CONTACT:

Mary Furuness, 907–586–7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI exclusive economic zone according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The final 2016 and 2017 harvest specifications for groundfish in the BSAI (81 FR 14773, March 18, 2016) set the 2017 Aleutian Island (AI) pollock TAC at 19,000 metric tons (mt), the 2017 Bering Sea (BS) pollock TAC at 1,340,643 mt, the 2017 BSAI Atka mackerel TAC at 55,000 mt, the 2017 BS Pacific cod TAC at 238,680 mt, and the AI Pacific cod TAC at 12,839 mt. Also set was an AI pollock ABC of 36,664 and a Western Aleutian Island limit for Pacific cod at 26.3 percent of the AI Pacific cod TAC. In December 2016, the
