

When stock products don't meet your needs, turn to J. J. Keller's Custom Solutions team. From the simple to the complex, we'll build a solution that's as unique as your company.

## HERE'S HOW WE'VE PUT OUR CONTENT TO WORK FOR OTHER COMPANIES ...

### Training Course Licensing

A beverage manufacturer recently inquired about the ability to put a course from J. J. Keller's Interactive Online Training Center on its own Learning Management System (LMS). J. J. Keller Custom Solutions worked with the customer to determine the requirements of its LMS and prepared the selected course for their use. The customer licensed the course to operate on its LMS. The 1-year license provided training for up to 100 of the customer's employees.

### DVD Compilation

A building materials distributor was interested in over a dozen J. J. Keller training videos. But because the company's trainers needed to travel to various locations, having to carry around that many different DVDs would be cumbersome. J. J. Keller Custom Solutions stepped in and compiled 15 separate DVDs into 3-DVD sets for a much more convenient training solution.

Many J. J. Keller customers find that they'd like to use our products in a way that is outside normal copyright use guidelines.

For example, you may want to use J. J. Keller materials ...

- on a company intranet
- in a company publication
- or even as a value-add for clients.

J. J. Keller can license for your use parts of or entire products, including videos, forms, newsletter articles, handbooks, and manuals.
